CONTENTS OF VOLUME 41

NO. 1, JANUARY 1983

The Genetic Engineering of Nitrogen Fixation, by Christopher D. Earl, B.S. and Frederick M. Ausubel, Ph.D. 1
Premature Infants Fed Transpylorically Gain Weight Slowly 7
Blood Glucose Response to Various Foods 8
The Dietary Treatment of Phenylketonuria 11
"Studies on Phenylketonuria. 1. Restricted Phenylalanine Intake in Phenylketonuria": Marvin D. Armstrong and Frank H. Tyler 15
Changes in Receptor Levels in Brain During Experimental Copper Deficiency 19
Food Intake, Satiety and Peptide Hormones of the Brain-Gut Axis 20
Federally Supported Human Nutrition Research, Training, and Education: Update for the 1980s 23

NO. 2, FEBRUARY 1983

The Functional Assessment of Nutritional Status: Principles, Practice and Potential, by Noel W. Solomons, M.D. and Lindsay H. Allen, Ph.D., R.D. 33
Further Studies of Acute Folate Deficiency Developing during Total Parenteral Nutrition 51
Critical Weight Loss in Breast Fed Infants 53
Malnutrition in Regional Ileitis 57
"A Review of Methods Used in Nutrition Surveys Conducted by the Interdepartmental Committee on Nutrition for National Defense (ICNND)" 60
Role of Cyclic AMP-Dependent Protein Kinase in Retinoic Acid-Mediated Cell Differentiation 63
Phytate and Zinc Metabolism 64
Meeting Announcements 67
Fellowship Program 67
Letter to the Editor 67

NO. 3, MARCH 1983

Calcium and Phosphorus Requirements of Low Birth Weight Infants: A Nutritional and Endocrinological Perspective, by Stephanie A. Atkinson 69
Biochemical Differences between Preterm and Term Milk 79
Antibody Formation to Cow's Milk Protein or Soya Protein 80
Osteoporosis and Calcium Balance 83

"Menopausal Changes in Calcium Balance Performance": Robert P. Heaney, Robert R. Recker and Paul D. Saville 86
Arachidonic Acid Stimulates Prostaglandin Synthesis in Cytoprotection of Gastric Mucosa 90
The Three Intracellular Binding Proteins for Retinoids and Their Endogenous Ligands: The Function of Intracellular Retinal Binding Protein 92
Linoleic Acid, Prostaglandin Synthesis and Chronic Renal Failure in Rats 94
Heat-Treated Cow's Milk Remains Allergenic 96
Letters to the Editor 98
Recent Books 99
Correction 100

NO. 4, APRIL 1983

Hunger and Appetite: Old Concepts/New Distinctions, by Thomas W. Castonguay, Elizabeth A. Applegate, David E. Upton and Judith S. Stern 101
Nutritional Supplementation and Growth of Children at Risk of Malnutrition 111
Millet—A Possibly Goitrogenic Cereal 113
Changes in Nitrogen and Energy Metabolism during the Menstrual Cycle 116
Regulation of Leucine Breakdown in Man 118
The Enigma of Anorexia Nervosa 121
"Hypothalamic Lesions and Adiposity in the Rat": A.W. Hetherington and S.W. Ranson 124
Effects of Dietary Fat on Virus-Induced Autoimmune Disease 128
Pregnancy Suppression by Antibodies to Gestation-Specific Riboflavin Carrier Protein 130

NO. 5, MAY 1983

Nutrition and Longevity, by S.D. Morrison 133
Nutritional Status of a Healthy, Middle-Class, Elderly Population 143
Muscle Protein Catabolism in Cirrhotic Patients Reduced by Branched-Chain Amino Acids 146
Ascariasis, Giardiasis and Growth 149
Scurvy in an Old Man 152
"A Treatise of the Scurvy": James Lind 152
Vitamin E Status and Energy Metabolism in Cultured Cells 158
The Mechanism Whereby Folate Deficiency Can Cause Defective DNA Synthesis 160
Retinyl and Dolichyl Phosphomannoses Related to Vitamin A Status 162
Correction 164

NO. 6, JUNE 1983

Prevention and Therapy of Diabetes Mellitus, by R.A. Arky 165
Malabsorption of "Absorbable" Carbohydrates by Normal Individuals 174
A Tracer Method for Measuring Glucose Absorption Rates 177
Estrogen Excretion Patterns and Plasma Levels in Vegetarian and Omnivorous Women 180
Enteropathy in Diabetes Mellitus 184

"The Treatment of Diabetes Mellitus with Observations Based upon Three Thousand Cases": E.P. Joslin 187
Have the Pteroylpolyglutamates a Regulatory Function? 190
Relationship of Hypercholesterolemia in Rabbits to Lipoprotein Binding Receptors on Liver Membranes 192
Regulatory Relationships of Thyroid Hormone, Growth Hormone and High Carbohydrate Diet 194
Heinz Nutrition Center 196

NO. 7, JULY 1983

Clinical, Biochemical and Nutritional Spectrum of Zinc Deficiency in Human Subjects: An Update, by Ananda S. Prasad, M.D., Ph.D. 197
Plasma Levels of Zinc in Protein-Calorie Malnutrition and after Nutritional Rehabilitation 209
Zinc and Benign Postnatal Seizures 211
Metabolic Bone Disease and Vitamin D Deficiency in Crohn's Disease 213
Zinc Deficiency in a Patient with Sickle Cell Disease 217
"Syndrome of Iron Deficiency Anemia, Hepatosplenomegaly, Hypogonadism, Dwarfism and Geophagia": A.S. Prasad, J.A. Halsted and M. Nadimi 270
Hypervitaminosis A Enhances Hepatotoxicity of Ethanol in Rats 224
Long-Term Effects of Ethanol Consumption on Folate Status of Monkeys 226

NO. 8, AUGUST 1983

The Basis of Immediate Hypersensitivity Reactions to Foods, by Fred M. Atkins, M.D. 229
Iron Deficiency and Mental Development 235
Differences between the Immunology of Term and Preterm Milk 237
Predictive Equations about Whole Body Cholesterol Metabolism in Human Beings 239
Breast Feeding Prevents Otitis Media 241
Protein Malnutrition and Leukocyte Endogenous Mediator 242
The Multiple Etiology of Food Hypersensitivity 245
"A Case of Allergy to Common Foods": O.M. Schloss 249
Conversion of Vitamin K Epoxide to Hydroxyvitamin K by Liver Microsomes from Warfarin-Resistant Rats 253
Comparative Structures of Rat and Human Plasma Lipoproteins 254
Sucrose Transport into *Streptococcus Mutans* 256
Visiting Professorship 259
Assistant Editor 259
Recent Books 259

NO. 9, SEPTEMBER 1983

Brown Adipose Tissue Thermogenesis in Obese Animals, by Jean Himms-Hagen, D.Phil. 261
Megavitamin E Supplementation and Vitamin K-Dependent Carboxylation 268
Fat-Supplemented Preterm Infants Grow Faster 270
The Influence of Eggs Upon Plasma Cholesterol Levels 272
Taste of Salt on a Low Sodium Diet 274
Cobalamin R. Binder Deficiency in a Woman with Thalassemia 277
"Isolation of Intrinsic Factor and Its Probable Degradation Product, as Their Vitamin B_{12} Complexes, from Human Gastric Juice": Ralph Gräsbeck, Kai Simons and Irma Sinkkonen 281
Utilization of Ketone Bodies in Rat Liver 284
Effects of Tryptophan and Nicotinamide Intakes on In Vivo Oxidation of Tryptophan and Excretion of N^1-Methylnicotinamide in Young Rats 286

Endogenous Metabolites of Vitamin A and a Test for Functional Activity of 5,6-Epoxyretinoic Acid 289

NO. 10, OCTOBER 1983

The Future of Fermented Foods, by C.W. Hesseltine, Ph.D. 293
Use of Iron-Fortified Salt to Combat Anemia: The Indian Experience 302
Preterm Human Milk Improves the Growth of Preterm Infants 304
Highly Adapted Milk Formulas Improve the Growth of Preterm Infants 306
Chromium Status and Serum Lipids 307
Iron Deficiency Anemia Due to Impaired Iron Transport 311
"Iron Deficiency Anemia Associated with an Error of Iron Metabolism in Two Siblings": N.T. Shahidi, D.G. Nathan and L.K. Diamond 315
Copper Deficiency in Developmental Emphysema 318
Methionine Can Open the Methyl Folate Trap 320
Triacylglycerol Structure and the Atherogenicity of Peanut Oil 322
Meeting Announcement 324
Recent Books 324

NO. 11, NOVEMBER 1983

W.O. ATWATER MEMORIAL LECTURE: Energy in Human Nutrition: Perspectives and Problems, by George H. Beaton, Ph.D. 325
Relation of Caries Prevention in Mothers to the Infection of their Children's Mouths 341
Strontium and Dental Caries 342
Age. Masticatory Ability and Swallowing 344
Heparin Improves Lipolysis in Low Birth Weight Babies 346
Refractory Obesity and Energy Horneostasis 349
"A Respiration Calorimeter with Applicances for the Direct Determination of Oxygen": W.O. Atwater and F.G. Benedict 353
Metabolism of β-Carotene by the Bovine Corpus Luteum 357
Loss of Renal Enzymes 359

NO. 12, DECEMBER 1983

Modern Concepts of Obesity, by J.R. Vasselli, M.P. Cleary and T.B. Van Itallie 361
Author Index 374
Subject Index 393
